

CONCEPT STUDY — NOT FOR TOOLING. Confirm every dimension on a physical last before a mold.

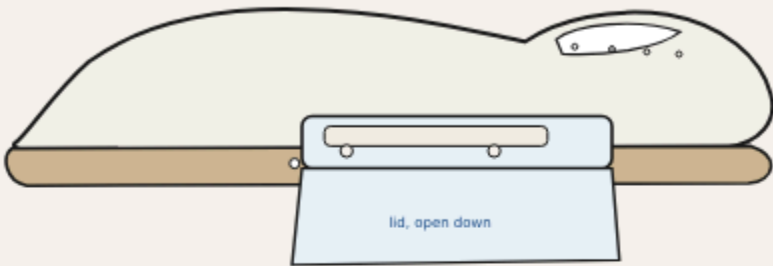

1 LATERAL, CLOSED · left shoe, outer side

275 study

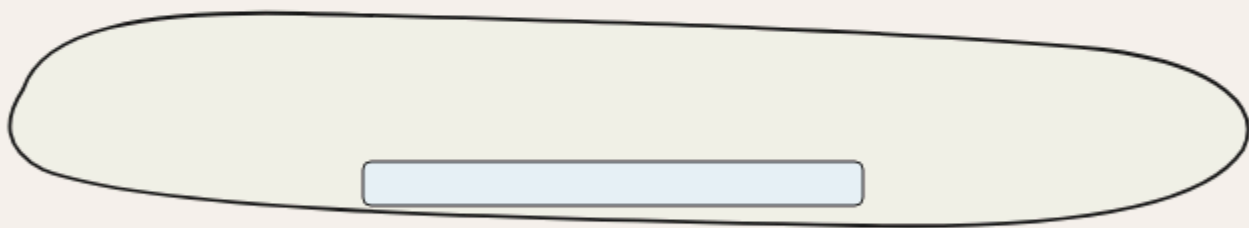

Toe left. Heel right. Window in the lateral midsole. One fingerboard only.

2 LATERAL, LID OPEN DOWN

Hinge on the lower edge. Pull the board out by hand. No spring.

3 TOP · window on the outer side

The window is on one side only, not through the sole.

4 BOTTOM · gum outsole, no opening

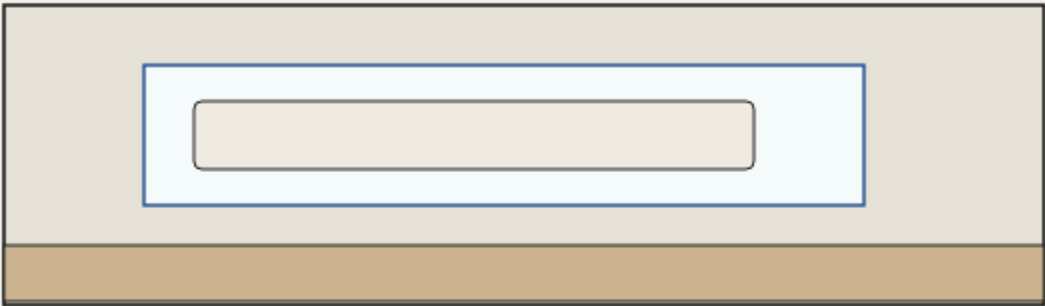

Do not cut the ground contact. The cavity is above the outsole.

Upper: suede and canvas. Color changes by model. Last does not.
Midsole: molded, holds the cavity. Outsole: gum rubber.
Window: clear PC or TPU, about 1.5 mm. Confirm with the factory.
Cavity study: 104 x 32 x 20 mm. Board study: 96 x 29 x 16 mm.
These numbers are assumptions for EU 42. They are not measurements.

CONCEPT STUDY — NOT FOR TOOLING. Confirm every dimension on a physical last before a mold.

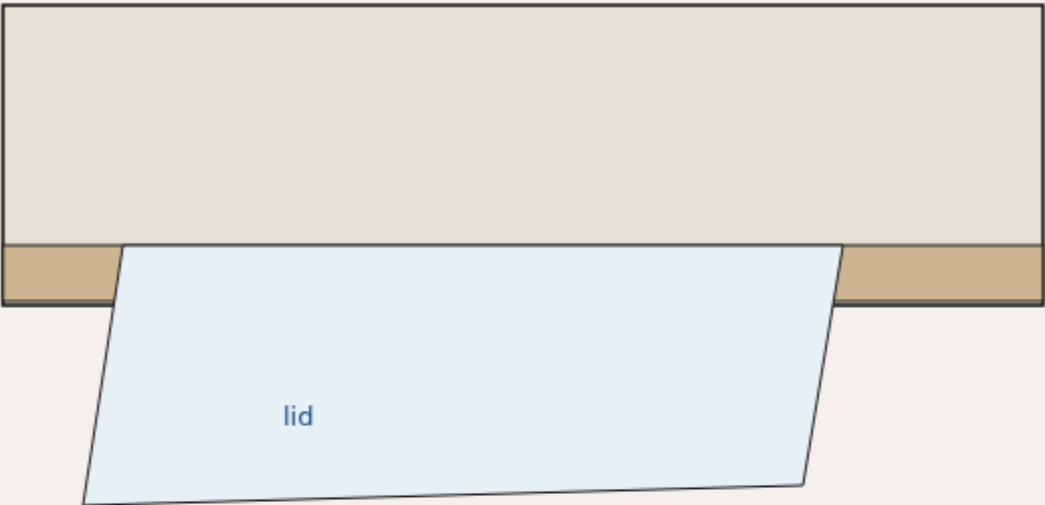

CLOSED

Outsole below. Cavity above it. Board loose inside, not glued.

OPEN

The lid stays attached at the bottom hinge. It does not detach in normal use.

- 1 Shoe on the foot, or in the hand. Either is fine.
- 2 Open the lid downward with one hand.
- 3 Pull Deckie out. Nothing else is stored in the shoe.
- 4 Play. Then put the same board back and close the lid.
- 5 Finger clothes, extra boards, and ramps are separate. They do not go in the cavity.

If the cavity cannot hold a 96 mm board with its wheels, stop and resize. Do not force a smaller claim.

CONCEPT STUDY — NOT FOR TOOLING. Confirm every dimension on a physical last before a mold.

MODEL	UPPER	ROLE	CAVITY
STREET CORE	Charcoal, cream, gum	Main direction	Same window 
TURBO POP	Blue and orange	Color study	Same window 
CLOUD SWITCH	Cream, sage, lilac	Color study	Same window 
NIGHT MARK	Black, orange, white sole	Color study	Same window 
RED ARC	Red and blue	Color study	Same window 

Do not tool five lasts. Tool one last. Swap the upper colors.
Play-kit boxes, extra boards, finger clothes, and ramps are not part of the shoe mold.
